

System Info

```

+ Product : IBM PureData System for Analytics N2002-005
+ Model : 050_B
+ HPF : 5.6.0.1
+ FDT : 4.3.1.7
+ NPS : 7.2.1.8-P2 [Build 25]
+ NPS State : online
+ MTH(s) : MTH has not been set
+ NzId :
+ NZ Owner : nz
+ OS : Red Hat Enterprise Linux Server release 6.10 (Santiago)
+ Kernel : 2.6.32-754.41.2.el6.x86_64
+ HealthCheck : 2.3.1.2 [20190709072818]
+ Hostname : netezza1
+ NPS Up Time : 20 days, 13 hrs, 32 mins, 50 secs
+ Host Up Time : rack1.host1 : 206 days 16 hours 35 minutes 36 seconds
+ Host Up Time : rack1.host2 : 206 days 16 hours 35 minutes 33 seconds
+ CallHome : No address information
    
```

Your report will include recommendations on which software versions you should install to address known hardware and performance issues

Hardware Issues Your issues are automatically added to our Netezza help desk as tickets

Reference	Issue	Detail	Severity
NSD0nn	Multiple SCSI log page 0x15 events occurring daily	disk3[spa1.encl4](HWID: 1074) (from catalog) - 699 defects occurred on 2022-06-06	Low
NSD0nn	Failed hardware component(s)	spa1.diskEnc14.disk8 with HW_ID = 1079 : state is: 0k role is: Failed spa1.diskEnc15.disk3 with HW_ID = 1119 : state is: 0k role is: Failed spa1.diskEnc16.disk8 with HW_ID = 1169 : state is: 0k role is: Failed spa1.diskEnc11.disk6 with HW_ID = 1212 : state is: 0k role is: Failed spa1.diskEnc11.disk14 with HW_ID = 1220 : state is: 0k role is: Failed	Medium
NSD0nn	Multiple SCSI log page 0x15 events occurring daily	disk3[spa1.encl4](HWID: 1074) (from catalog) - 699 defects occurred on 2022-06-06	Low
NSD0nn	Failed hardware component(s)	spa1.diskEnc14.disk8 with HW_ID = 1079 : state is: 0k role is: Failed spa1.diskEnc15.disk3 with HW_ID = 1119 : state is: 0k role is: Failed spa1.diskEnc16.disk8 with HW_ID = 1169 : state is: 0k role is: Failed spa1.diskEnc11.disk6 with HW_ID = 1212 : state is: 0k role is: Failed spa1.diskEnc11.disk14 with HW_ID = 1220 : state is: 0k role is: Failed	Medium
NSD0nn	Multiple SCSI log page 0x15 events occurring daily	disk3[spa1.encl4](HWID: 1074) (from catalog) - 699 defects occurred on 2022-06-06	Low
NSD0nn	Failed hardware component(s)	spa1.diskEnc14.disk8 with HW_ID = 1079 : state is: 0k role is: Failed spa1.diskEnc15.disk3 with HW_ID = 1119 : state is: 0k role is: Failed spa1.diskEnc16.disk8 with HW_ID = 1169 : state is: 0k role is: Failed spa1.diskEnc11.disk6 with HW_ID = 1212 : state is: 0k role is: Failed spa1.diskEnc11.disk14 with HW_ID = 1220 : state is: 0k role is: Failed	Critical

Findings & Recommendations

From the observations we make from this report we will provide you a list of recommendations including specific actions required to improve your Netezza system's health, addressing:

- Outdated software
- Defective hardware
- Capacity planning and monitoring
- Performance tuning recommendations
